Dear Superintendent Gumaru:

Greetings of conservation.

We are pleased to inform you that this Office has initiated the “Adopt-A-National-Greening Program (NGP) Site” project. This aims to ensure sustainability of the graduated NGP site to improve water yield capacity. The project will consolidate and harmonize all greening efforts of the government, civil society and the private sector. This will also foster positive values among the youth and other partners through shared responsibilities in the sustainable management of tree plantations and forest resources. The proposed NGP site for adoption is located at Sitio Chavyawan, Barangay Radiwan, Ivana, Batanes.

Recognizing the support that you have contributed in the greening efforts of the Department, we have chosen you as one of the prospective adopters of the site.

In this connection, may we cordially invite you for a meeting on September 6, 2024 at 1:30 in the afternoon at the PENR Office where we can outline the objectives, expectations, and potential roles of your Office in this project.

We look forward to your favorable response on this request.

Thank you.

Very truly yours,

V. A. L. U. G.
VICTORIA D. BALIUAG
PENR Officer
