RELEASED
 Date: 11/13/24 Time: 8:18
 By: BSC-RLO fit

Dear Dr. Gumaru,

The Teacher Education Department of Batanes State College respectfully seeks approval and support for conducting a **feasibility study** aimed at introducing **Bachelor of Science in Environmental Science** program for students in Grades 10 to 12 across all secondary schools in the province. Furthermore, we intend to gather **feedback from employers** in all schools regarding the **performance of our alumni**.

The primary objective of this feasibility study is to explore the potential for a program that empowers students to actively participate in the preservation and sustainability of the environment.

The study will also involve surveys and interviews with key stakeholders, mainly the students and the employer's feedback. We assure you that all data collected will be handled with the utmost confidentiality and will be utilized solely for research purposes.

We hope to start this initiative by November 15, 2024, and to complete it by December 2024. Your support and approval would be instrumental in moving forward with this initiative.

Thank you for considering this request.

Sincerely,

ANTONIA E. ESPAÑOL
 Chair, Teacher Education Department

Noted by:

DJOVI REGALA DURANTE, DPA
 SUC President I

VISION

An optimized higher education institution recognized for its excellence in transforming lives

MISSION

The Batanes State College endeavors to promote quality and accessible future-ready programs reflective of Ivatan cultural heritage for professional development, people empowerment, and global competitiveness.
